

## Privacy and Data Protection

---

### Purpose and Scope

At New Zealand Kindergartens (NZK) we are privy to the private and sensitive information of our team, whānau, volunteers, students, and other business or community organisations we work with. We need to be aware of the opportunity for a data breach by accident or by way of IT hacking. This procedure sets out how we will collect, use, disclose and protect the personal information of others. It also sets out what to do should you suspect that a data breach has taken place.

This procedure applies to the Board, General Managers/Chief Executives (GMs/CEs), staff members (whether permanent, fixed, casual or relieving), contractors, whānau, volunteers, students, and other businesses or community organisations that we work with across the NZK network. The procedure applies at our workplace, at work events (such as offsite training) and outside our workplace (when it is related to our work).

### Legislation

NZK complies with the *Privacy Act 2020* and the *Harmful Digital Communications Act 2015* when dealing with personal information. Under the *Privacy Act 2020*, if a business has a privacy breach that either has caused or is likely to cause anyone serious harm, they must notify the Privacy Commissioner and any affected people as soon as they are practically able.

### Key Definitions

**Personal information** is any information about an identifiable individual (a natural person). It may include (without limit) name, address details and personal preferences.

**Privacy breaches** occur when an organisation or individual either intentionally or accidentally provides unauthorised or accidental access to someone's personal information or discloses, alters, loses, or destroys someone's personal information. A privacy breach also occurs when someone is unable to access their personal information due to, for example, their account being hacked.

Subject to certain grounds for refusal set out in the Act, you have the right to access your readily retrievable personal information and to request a correction to your personal information. We will of course, require evidence to confirm that you are the individual to whom the personal information relates.

In respect of a request for correction, if we think the correction is reasonable and we are reasonably able to change the personal information, we will make the correction. If we do not make the correction, we will take reasonable steps to note on the personal information that you requested the correction.
