Cultural Diversity—Our role in celebrating this for all mokopuna.

### The journey thus far....

Thank you all for the energy, attention and engagement in the hui and website at date. Please see below a new set of dates we have planned out to complete this SELO mahi. PLEASE ensure you make a note of these and catch team members up to speed with the mahi over the last six weeks.

Please feel free to contact anyone of us if you need any help in developing your action plans and putting these into place. We have added some simple frameworks as examples to use or use your own internal evaluation frameworks to document this mahi. Remember this is a window in time so be focused on what you will do in the next few weeks to put your learning into action. It is mahi that will continue to grow over time but we are focusing on this small timeframe, so be realistic in what you are wanting to achieve. The midway assessment sheet will be posted out after the Tapasa zui.

Rotuma is a remote island north of Suva Fiji. Check out this website for more information. <http://www.rotuma.website/>

*Here is a link to a 3 part story of a young woman and her daughter returning to Rotuma for the first time. It is a wonderful way of seeing meaning behind Tapasa. by Tagata Pasifika.*
